CHRISTOPHER CUTTS GALLERY

Christopher Cutts Gallery is pleased to announce its 4th solo exhibition of new paintings by Pat McDermott.

In his most recent body of work, Pat has extended his investigation into the relevance of painting. He has created an arresting body of work that contains a pared-down aesthetic. The paintings, which are small in scale, are rich in appeal. They are eloquent and beautiful.

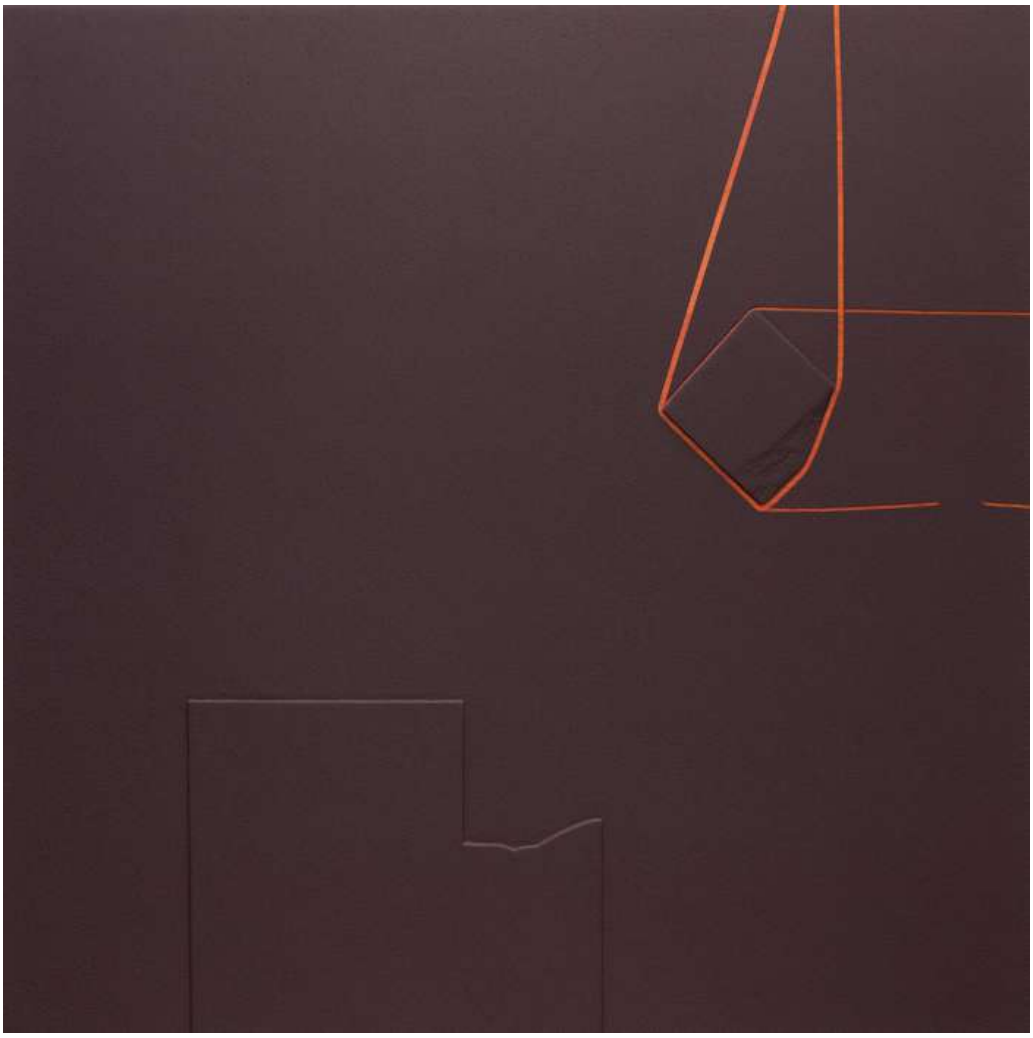

Pat McDermott's accompanying statement proclaims that: Painting *is* thinking… Painting is a place for clarity… Painting is both expression and participation. My paintings exist in a moment of something happening.
